

# EMPOWER YOUR VALUE-BASED ORTHOPEDIC SUCCESS

Optimize | Lower Costs | Enhance Patient Satisfaction

- CAPTURE BODY MOVEMENTS
- LOCAL TEMPERATURES
- STEP COUNTS
- TRACKS PATIENT ACTIVITY LEVEL
- RANGE OF MOTION
- LEG POSITION EVERY MINUTE

#### PATIENT PROVIDED INFO.

- PAIN/PROMS
- SURVEY RESULTS
- WOUND PHOTOS
- EXERCISE COMPLIANCE

#### HIPAA COMPLIANT TELEMEDICINE

- AUDIO/VIDEO/CHAT

- PATIENT ANALYSIS AND TRIAGE
- TELE-INTERACTIONS
- REIMBURSEMENT DOCUMENTATION
- MONITORS RECOVERY CURVE

## DISCOVER THE TRACPATCH ADVANTAGE

Increase patient quality of care and compliance - Reduce post-surgical costs to increase your savings.

### ● Why TracPatch?

*TracPatch is the innovative wearable solution designed specifically to streamline your transition into successful orthopedic Value-Based Care (VBC).*

- **Real-Time Patient Monitoring:** Gain objective, actionable insights into patient recovery, activity levels, range of motion, pain scores, and more.
- **Reduce Costs & Improve Resource Allocation:** Take costs out of the bundle by efficiently identifying patients who need targeted interventions, supporting accelerated discharge plans.
- **Identify Risks Early & Prevent Readmissions:** Monitor patient recovery and detect risks early, minimizing costly ER visits and hospital readmissions.
- **Automate Data Collection & Reporting:** Easily collect and automatically report KOOS, and PROMs data to CMS and The Joint Commission, simplifying compliance.
- **Enhance Patient Engagement:** Improve patient adherence with intuitive feedback and interactive recovery tracking, resulting in better clinical outcomes and patient satisfaction.
- **Peer-Reviewed Protocols:** Our protocols are derived from peer-reviewed manuscripts, ensuring clinical validity and data-driven decision-making.
