## Community Commercial

### GENERAL CHARACTERISTICS

Community Commercial areas are designated for higher intensity commercial uses. In Holland Charter Township, a large part of the Community Commercial land uses are concentrated along the US-31 Corridor and the east end of Lakewood Boulevard. In these areas, majority of the Community Commercial structures include big box stores, shopping malls, restaurants, and retail centers.

### APPROPRIATE LAND USES

Higher intensity commercial businesses such as retail stores, personal services, small offices (including medical offices), restaurants (both sit-down and fast food with drive-thru), and more. The sales of those establishments within Community Commercial areas should include the sale of goods and services that can benefit the community on a wider scale. In general, developments within Community Commercial land uses are single-use commercial structures.

### STREETS AND TRANSPORTATION

Community Commercial land uses in Holland Charter Township are typically surrounded by County primary roads, which are characterized with higher volumes of traffic, heavier vehicles, and faster speeds. Community Commercial streets should allow for regional connectivity as well as pedestrian connectivity and protected pedestrian crossings on both sides of the road. Roadside landscaping and other beautification elements should be considered in these areas due to the high volumes of both motorists and pedestrians traveling to these areas.

### BUILDING AND SITE DESIGN

Buildings should be constructed of high-quality materials which wrap around the entire building and feature attractive signage. Robust landscaping should be installed throughout the site. Commercial buildings should be supported by sufficient but not overly excessive parking areas. Parking areas may be located in the front, side, or rear yards for buildings. Large areas of parking should be broken up with landscaped islands and trees.

### APPROPRIATE DISTRICTS

- Community Commercial (C-2)
